

Natural High

I

I'm takin' a day off
My nine-to-five I drop
Feeling free from any expectation
I open myself up
For surprises,
never stop looking for my own revelation

Chorus:

**I'm on a natural high
As high as butterflies
I'm floating on my waves
Giving my ideas and dreams some space**

II

I'm leaning back today
Go on a trip and stay
Positive for anything that might come my way
Smell flowers, lean on a tree
Let the day inspire me
To write a song and find my way
To break free

Chorus:

**I'm on a natural high
As high as butterflies
I'm floating on my waves
Giving my ideas and dreams some space**

Bridge:

I'm on a long journey
To my inner child
Trying to get ready
To spread my wings and fly
I'm constantly yearning
To become free and wild
Surrounded by a higher love
helping me shine

Chorus:

**I'm on a natural high
As high as butterflies
I'm floating on my waves
Giving my ideas and dreams some space**
