Money

I'm the first who claims that money won't make you happy
If you don't know how to get the basics of your life straight
Like finding your inner balance, keepin' it tight with your family
...but all of that seems quite hard if you don't have no money

I don't need big houses
Don't want the newest cars
Don't even like bling-bling...
but we all wanna live comfortable
Weird that I sing about it
it's hard looking in truth's eyes
The world could be good without it
but what could be would be just don't count

Chorus:

Money makes the world go round, so why are we still hungry?
Wasting our precious time chasing the green
Wars and rides to mars are paid with our money
When actually there should be enough for everybody

One day we should see, a piece in the puzzle is missing
And something's going very wrong in our system
The rich man gets richer, the poor man is dying
'Cause the rich ignores the poor and politicians keep on lying
...and every minute that we're listening to this melody
A child is leaving this world...dying from hunger

Chorus:

Money makes the world go round, so why are we still hungry?
Wasting our precious time chasing the green
Wars and rides to mars are paid with our money
When actually there should be enough for everybody

Rap:

Politicians are like they oughta
the motherland is in need of food and water
Peace to Mandela but he didn't even bother
One man went in, President Shawn Carter
10 water pumps, 14 grand each one, teach one how to feed the first
then reach one
Hand out to the underprivileged n that's a ... That's how we better off!
The government is slaving these kids
N they asking for the public (that's you) to pay the bills
The summers and the winters ain't the same, black
But all the bling-bling on the planet can't even change that
I ain't gotta yap about them but yes that's your flaws
If you're running you're used to you're like a black auction
This is my ticket to heaven; I'm down for the ride
You're the richest man alive once God's by your side
