No one

Intro:

Who do you lie to now? Who do you make cry now?
Who do tell now that no one love them the way you do?

Chorus:

2x No one could love me the way you do
you said that
no one could love me the way you do
....n now you're gone

... - gone out of my life
now you run

....tryin to hide from me I won't (I won't)

Never understand (never understand) how you could do this to me,
baby

Wrong (so wrong) for me to think I was the one (the one and only)
...and only in your life

How dumb – oh, love makes so blind though and so numb
And when it's gone it hurts so deeply

Chorus:

2x No one could love me the way you do
you said that
no one could love me the way you do
....n now you're gone

... - From one day to the next, how come
.... You felt the need all of a sudden
To turn your back on me so easily
Like you had fooled me just for fun!
Baby, I believed in you and me
'Cause you seemed to be
The first I could take seriously
When you looked at me and spoke your poetry, and you said to me
that:

Chorus:

2x No one could love me the way you do
you said that
no one could love me the way you do
....n now you're gone

Bridge/Intro: who do you lie to now?...

Chorus:

2x No one could love me the way you do
you said that
no one could love me the way you do
....n now you're gone
