Reality

Sometimes truth hurts
It might bring changes that are hard to face then
You'll find their worth when all the pain is
Slowly fading

Don't be scared to close
You'll be happy you chose the right way
It might be a long road
Gives you time to grow
Till you reach your aim

Chorus:

Reality is not always nice but
it opens your eyes, it's better than lies
Reality will one day catch you
Turn on the spotlight, no places to hide

Life might seem easy when everybody's smiling
You enjoy the fame when you have climbed up high
But the higher you are, the deeper you fall

Be aware
Of who's really your friend, sticks to you in the end
Dries your tears

Chorus:

Reality is not always nice but
it opens your eyes, it's better than lies
Reality will one day catch you
Turn on the spotlight, no places to hide

Bridge:2x

You can find your truth,
Just stay true to you
Watch the things you do
Karma comes back around
Think about the way
You plan your child's day
Teach them truth

Chorus:

Reality is not always nice but
it opens your eyes, it's better than lies
Reality will one day catch you
Turn on the spotlight, no places to hide
