

Before

Verse1

You inspire me
So I let you through to me
Cuz you seem to be
What my soul was searching for

I am carefull though
Cuz I'm still vulnerable
You got me helplessly
Caught like a fly in a spiderweb

N that's what got me scared
Don't know if i should dare
To give you all I have
Another cut...could kill my heart

Chorus: 2x

Before I open up for you
Tell me that you won't fake it
Before i give my heart to you
Tell me that yours ain't taken

Verse2

I admire you
Hoping you're worth it, too
Praying that love don't make me blind
to what is your true inside
I think you're beautiful
I sense you're an old soul
I feel too deep for you
for the time that i've known you though

Chorus: 2x

Before I open up for you...
