

Not you

V1

It's the nights that are lonely that I feared
thought that I couldn't live
Without you baby, without you baby
Took me a while, n now I see
We wasn't meant to be
in this lifetime baby, maybe next lifetime baby

Prehook:

You never saw me for who I am
You never seemed to understand
How much I really wanted you

Chorus:

I loved my idea of you
Thought this love was really true
But it wasn't, no it wasn't you...
I loved my idea of you
Now i know that it's not you
No it is not you, it's not you...

V2:

The music life that I live doesn't fit
into your world and so you quit
Cuz you're scared baby, you're scared baby

It was hard for you to really trust
Cuz you think about your own lust
I am not the same baby, not the same baby

Prehook:

You never saw me for who I am
You never seemed to understand
How much I really wanted you

Chorus:

I loved my idea of you

Bridge:

You had your own plan in mind
But it takes two visions combined

Now I found me a man
Who really understands And loves
Me for me

I'm not trying to blame you
Cuz it was me
who saw something differently
In what we could have been

Chorus 2x:
