On my way

I wanna feel like a child
So pure, free and wild
Nothing bad on my mind and my spirits high
**No regrets, no doubts,
no grudge, no frowns**
observin' and learning what's going 'round
'Cause good and bad things in life happen to guide our way

Bridge:

Most people's days end up just **being routines**
Don't want my life to **go down that road**
Even though I know **we all wanna be happy**
I need my happiness to **reach a higher level**
I tell myself:

Chorus 2x:

I'm on my way to where I wanna be
Won't let nobody hold me down no more
I'm on my way to where I wanna be
Won't let no one stop me

Sometimes I feel like a girl, **pretty silly**
Nothing but music on my mind, **all day just giggling**
Not that I can't be serious,
Not that I don't have no worries,
But I'm tryin to get stronger every day, **let only good people**
surround me

Bridge:

Most people's ways end up **not being so clean**
Don't want my soul to **go down that road**
Even though I know we all wanna be happy
I need my **spirits to rise to a higher level**
That's why I say:

Chorus 2x:

I'm on my way to where I wanna be
Won't let nobody hold me down no more
I'm on my way to where I wanna be
Won't let no one stop me
