

We got stopped

Chorus:

We got stopped for a reason
So we can go thru that change
Let us stop for a minute
Before it gets too late

V1:

The shutdown put us all
in a state of shock
All operations set on hold
Da rat race got stopped

Everybody wondered how
We can all move on
we woke up from the game we played
For far too long

Prehook:

Let's take this as a chance
Cuz fate is in our hands

Chorus:

We got stopped for a reason
So we can go thru that change
Let us stop for a minute
Before it gets too late

Verse 2:

The time we spent at home
With our family
Not allowed to go to work
Created possibilities

Marches on the street
For the rights to speak our mind
Showed us how this world
Still got us all divided

Prehook:

Let's take this as a chance
Cuz fate is in our hands

Chorus:

Let us stop for a minute...

Bridge:

Who am I
What am I here for
I Use the silence to figure out
How can I serve
How can I be a better me
Take advantage of this break to ask
what's my task

Cuz now's the time for us all to wake up, wake up, oh
oh oh!

Chorus:

We got stopped...
