

Up to me

V1:

No one tells me what to do
Still I feel I'm being used
Must be in my mind
Time That I rewire

Feel like I am being stressed
Though there's no one in my neck
Must be in my head
Time to release that

Prechorus:

I'm stuck in a pattern
I learned as a child
Have to find out
How to let it go

Chorus:

It's up to me
To feel free
Let go of my shackles
On my feet

It's up to me
To feel free
I'm the creator
Of who I'll be

V2:

No one tells me where to go
Still I feel like someone holds
Me to stay at home
Time to hit the road

I don't feel i am being loved
Somewhere down the road I've lost
The love for my own ...self

Chorus:

It's up to me...

Prechorus:

I'm stuck in a pattern
I learned as a child
Have to find out
How to let it go

Bridge:

I learned that:
Grace is hiding
Behind hard phases in life
I learned that
Every challenge can help me
In my process of waking up

Chorus:

It's up to me...
