

New air

Verse1

It's new air that I'm breathing now
You're gone and I smell it
But it's not as empty as I feared it would be
Instead I feel a little bit more free

It's new colors that I'm seeing now
Your gone and i face it
But it's not as blue as when i've been with you
Something has cleared my blurry view

2x Chorus:

My view has changed
Since you've been gone
Had to rearrange
And sing a new song

Verse2

It's a new vibe that I'm feeling now
You're gone and i taste it
But it's not as sour as I feared it would be
Instead life's finally so sweet

It's new tunes that I am hearing now
You're gone and I sing it
The beat is tighter than when I've been with you
And I can finally dance to it

Chorus:

My view has changed...

Bridge

I had to learn to love myself again
Had to find who I really am
Spend some time with my own thoughts
So my soul could free itself from yours

Chorus:

My view has changed...
