V1

I know life ain't easy
everyone says: "Please me!"
I'm trying to see the light
right behind the clouds
It's nobody's business
how I work my days
don't wanna keep walking these
same old ways

Prechorus:

I try to get over my own insecurities
relax a bit and just be me

Chorus:

I wanna be free
go ahead and love myself
free to be me
me and no one else
I wanna be free to be
different like i wanna be
just me
me and no one else

V2:

I'm choosing my colors
I pick my own friends
I care about others but not what
other people think
As long as you're peaceful
welcome to my life
I need to make sure my own
surroundings feel alright

Prechorus:

I try to get over my own insecurities
relax a bit and just be me

Chorus: I wanna be free...

Bridge:

I wanna be free...
of ego
just free
of expectations
i wanna be free
of judgment
just free
n simply be

Chorus:

I wanna be free...
