

## How do you

Chorus:

How do you, how do you  
- make words unsaid  
- make mistakes undone  
- make somebody's heart unhurt  
If we were supposed to know we would  
but couldn't learn to move on

Verse1:

I hurt somebody else's heart  
By following my own  
No matter how much in love I was she said  
I should've left this boy alone  
But circumstances, heart and fate  
Connected me with his soul  
That's how I lost her trust in me  
Though I still love her unconditionally

Chorus:

How do you, how do you...

Verse 2:

We hurt the ones we love the most  
More than those who are not that close  
I broke her heart n still I chose  
To live without regret for love  
What, had i given in to her  
Would that make us all happier?  
If she was the friend she said she was  
I hope one day she will forgive me, yeah!

2x Chorus:

How do you...
