Speak your mind

Chorus:
Could you say what you really thinking
Could you show what you really feeling
'Cause if you don´t speak your mind
I won´t understand you

Do you expect me
To read your mind
By just looking in your eyes
Believe me I would like to
And more than sometimes I try to
But you thoughts are hard to find
Oh baby give me a chance
'n open up yourself
Or it is too hard be with you
So tell me…

Chorus:
Could you say what you really thinking
Could you show what you really feeling
'Cause if you don´t speak your mind
I won´t understand you

Misunderstandings are easy to avoid
If you just say your thoughts out loud
Forget your pride
Don´t fear to hurt my feelings
You can talk to me anytime
I need to get to know you
Before we can try to
Feel each other without words
Oh baby please…

Chorus:
Could you say what you really thinking
Could you show what you really feeling
'Cause if you don´t speak your mind
I won´t understand you
